

9:00	<b>Welcome and Coffee &amp; Tea!</b>
9:15	<b>Keynote: Spatial and Temporal Reasoning with LLMs for Natural Language Comprehension and Grounding</b> <i>Parisa Kordjamshidi (Michigan State University, USA)</i>
10:30	<b>Coffee &amp; Tea Break</b>
11:00	<b>Invited Paper: Scalable Coupling of Deep Learning with Logical Reasoning</b> <i>Marianne Defresne (University of Toulouse, France + Toulouse Biotechnology Institute, France)</i> <i>Sophie Barbe (Toulouse Biotechnology Institute, France)</i> <i>Thomas Schiex (University of Toulouse, France)</i>
11:15	<b>Invited Paper: Ranking Information in Knowledge Bases: A Principle-Driven Framework</b> <i>Badran Raddaoui (Telecom SudParis, France)</i> <i>Christian Straßer (Ruhr University Bochum, Germany)</i> <i>Said Jabbour (University of Artois, France)</i>
11:30	<b>Geographical Cellular Traffic Prediction with Multivariate Spatio-Temporal Modeling</b> <i>ChungYi Lin (National Taiwan University, Taiwan + Chunghwa Telecom laboratories, Taiwan)</i> <i>Shen-Lung Tung (Chunghwa Telecom laboratories, Taiwan)</i> <i>Winston H. Hsu (National Taiwan University, Taiwan)</i>
12:00	<b>Geospatial Prediction Using Road Topology: A Graph-based Perspective</b> <i>Yameng Guo (Ghent University, Belgium)</i> <i>Seppe vanden Broucke (Ghent University, Belgium + KU Leuven, Belgium)</i>
12:30	<b>Lunch Break</b>
14:00	<b>Keynote: Advancing Efficient Large-Scale Constraint Optimization Problem Solving by Integrating Machine Learning and Automated Reasoning</b> <i>Shufeng Kong (Sun Yat-sen University, Guangzhou, China + Cornell University, USA)</i>
15:15	<b>Exploring the Impact of Disentangling Extraction and Reasoning in Multi-hop Spatial Reasoning</b> <i>Roshanak Mirzaee (Michigan State University, USA)</i> <i>Parisa Kordjamshidi (Michigan State University, USA)</i>
15:30	<b>Coffee &amp; Tea Break</b>
16:00	<b>An Evolutionary Geospatial Regression Tree</b> <i>Margot Geerts (KU Leuven, Belgium)</i> <i>Seppe vanden Broucke (Ghent University, Belgium + KU Leuven, Belgium)</i> <i>Jochen De Weerd (KU Leuven, Belgium)</i>
16:30	<b>Listening Style-Aware Dyadic Facial Motion Generation</b> <i>Gourav Datta (University of Southern California, Los Angeles, USA)</i> <i>Boshi Huang (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Nitesh Sekhar (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Vivek Yadav (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Shih-Yao Lin (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Ayush Jaiswal (Amazon Alexa AI, Sunnyvale, USA)</i> <i>Prateek Singhal (Amazon Alexa AI, Sunnyvale, USA)</i>
17:00	<b>On Neuro-Symbolic Challenges in Directional Relation Prediction</b> <i>Junjie Peng (Southwest Jiaotong University, China)</i> <i>Michael Sioutis (University of Montpellier, France)</i> <i>Zhiguo Long (Southwest Jiaotong University, China)</i>
17:15	<b>Joint Discussion and Final Remarks</b>
